

CALIFORNIA HEALTH FACILITIES FINANCING AUTHORITY

Cedillo-Alarcón Community Clinic Investment Act of 2000

Executive Summary

At the August 2001 meeting of the California Health Facilities Financing Authority, the Board approved grant awards totaling \$42,244,065 from the \$50 million available for grants under the Cedillo-Alarcón Community Clinic Investment Act of 2000 grant program. At the same meeting, the Board approved the amended grant program emergency regulations and the request by staff to submit the amended emergency regulations to the Office of Administrative Law. Approval of the emergency regulations by the Office of Administrative Law would enable the Authority to allocate the approximately \$8 million in remaining funds as grants to eligible clinics.

The emergency regulations were approved by the Office of Administrative Law on October 9, 2001 and applications for the funds remaining for the grant program were made available.

Results of Second Round Activity

The Authority received a total of 168 applications for grants totaling \$25,828,871 from each of the four predetermined geographic regions within the state.

As required by the regulations, preliminary grant notification letters were sent to all applicants on March 1, 2002. A total of 24 appeals were received from 18 different organizations. Staff recommends that the Authority approve 4 of the appeals. In addition, 5 clinics have requested to appeal the staff decision to the Authority at its March 28 meeting. (See Tab A).

The regulations implementing the grant program also require that at least \$10 million of the \$50 million available for grants is allocated to each of the four defined geographic regions. If the Board approves the staff recommendation as presented, including appeals as presented, the grant allocations meet the geographic distribution, as defined in the regulations.
